

Engineering Challenge: Create your own Sustainable Building!

Use your knowledge of **Sustainable Building** and the “**Create your own Sustainable Home Challenge - Sustainability Cards**” to help you as you **DESIGN**, a sustainable building of your choice (such as a home, a school, or a community center).

Please Consider...

- **Location**
- **Climate**
- **Energy**
- **Water and Waste**
- **Building Materials**

Make sure to **DRAW** and **LABEL** your building design on the back of this sheet or on a separate piece of paper! You can even **BUILD** a model!
