

Engineering Challenge: Fish

Suggested Materials: You can use materials from inside or outside for this activity. I used mostly household or office items for my design but outdoor materials such as rocks and sticks can work well too.

Outdoor Materials: (Please make sure you are not pulling these off of living plants)

- Sticks
- Rocks
- Fallen tree bark
- Reeds
- Nuts
- Pinecones

Indoor Materials: (Please make sure to have permission to use beforehand and clean up when you are done with your Engineering Challenge)

- Tooth picks
- Small plastic or rubber balls
- Washers and wing nuts
- Paper clips
- Clay
- Playdough
- Popsicle sticks
- Pipecleaners
- String
