

GLOBE OBSERVER CHALLENGE:

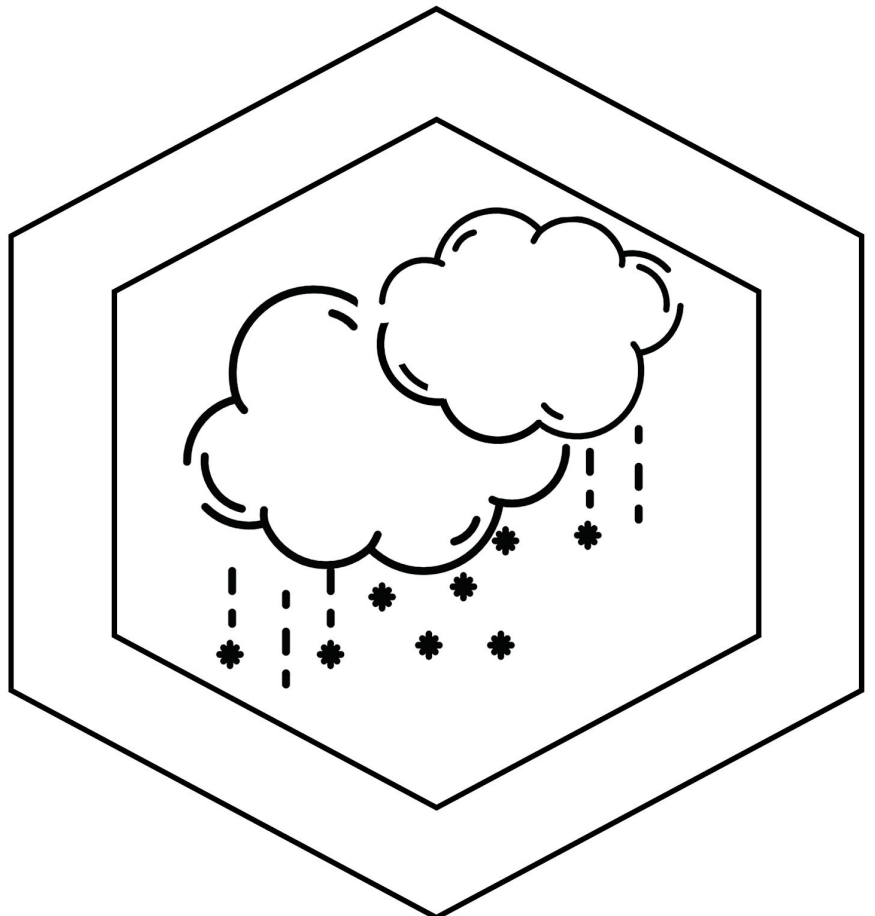

Use Globe Observer 3 days this week to document the clouds at your home:

1. **Download the Globe Observer app** onto your device, or create an account on <https://observer.globe.gov/en>
2. **Head outside!**
3. **Follow the prompts on Globe Observer to Document the sky above you.**
4. Can you identify the type of clouds in the sky, **use the app to help you figure out what they are called.** Stumped? Try using this [cloud identification guide](#) online for more pictures.
5. ***Congratulations you are now a citizen scientist!***
6. Color and cut out your own **Globe Observer Badge** for completing this challenge.

BONUS - Explore!

- Are there any animals in the sky?
 - What is the temperature today? Warm or cold?
 - Is it windy or calm?
7. **Add your observations from above into the Globe Observer Journal** with drawings and information from your exploration. Use the next page to help you get started.

GLOBE OBSERVER JOURNAL

Name:

Date:

Location:

Time:

In the space below, Draw and Describe what you see and feel as you explore the sky.

Try to include information such as:

- Observations of the weather,
 - temperature
 - precipitation
 - wind
- Cloud shape and type
- Wildlife
