

LIFE IN TREES

A single tree can be home for so many other plants and animals. Take some time to observe a tree near where you live and reflect upon the animals and plants that use it or call it home.

Write the Animals and Plants you see here

- _____
- _____
- _____
- _____
- _____
- _____
- _____
- _____
- _____
- _____

OR - Draw them on the Tree!

THINK:

about where different animals live and try to add some on the Ground(Detritus Layer), Trunk and in the Crown:

Don't have a tree nearby? Check out the video on the Nature Lab Forests webpage: wildcenter.org/naturelab
