

Otter Adaptations Challenge: Part 1

Think about what you've learned about the adaptations of river otters and what makes them so successful in New York State. **CREATE a poster of a river otter in their Habitat highlighting their Adaptations.**

Make sure to **LABEL** your otter and their environment and explain the challenges they face and how they overcome them with their adaptations.

Try to include:

- A source of water.
- A food source.
- A form of shelter.
- Which season it is.
