

Predator and Prey Challenge:

Watch a short clip from a Nature Documentary on a streaming platform of your choice or Youtube. Create an informational poster of an animal from the clip.

On your poster, you may want to include:

- What the animal is.
- Where it lives.
- What adaptations make it an effective predator or prey animal.
- How it fits into the foodweb - What animals or plants it eats and animals that are likely to eat it.
- A drawing of the animal with labels.
- Feel free to create your poster on paper or digitally.
