

REPTILES VS AMPHIBIANS: The Great Debate

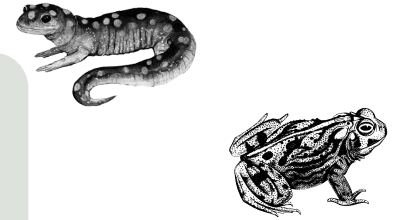

This week for Nature Lab we're digging into the differences between reptiles and amphibians. Your challenge is to pick either reptiles or amphibians, then to write an persuasive argument for why that group is the best. Each group of animals has so many awesome adaptations to choose from. to help you argue your case!

REPTILES

STEP 1 - Reptiles or Amphibians?
Pick a group to defend.

AMPHIBIANS

STEP 2 - Collect your Evidence
Use the space below to build your case.

- Why is the group you selected the best?
- Make sure to use some of their adaptations and behaviors in your case!

STEP 3 - Present your Case:
Write your argument for why the group you selected are the best.

BONUS: Have a friend or family member pick the other group and have a fun debate.
